PROFESSIONAL SUMMARY

Results-driven Frontend Developer and Team Lead with over 3 years of professional experience architecting high-performance, responsive web applications. Expert in HTML5, CSS3, JavaScript, React.js, Next.js, Bootstrap and Tailwind CSS. Proven track record of delivering 20+ production-ready platforms featuring 98% Google Lighthouse performance scores and 100% SEO optimization. Adept at driving complex REST API integrations, leading distributed cross-functional engineering teams and implementing scalable code architecture.

TECHNICAL EXPERTISE

Core Stack:	HTML5, CSS3, JavaScript (ES6+), jQuery, React.js, Next.js
UI Frameworks:	Bootstrap 5, Tailwind CSS
Tools & Architecture:	Git, GitHub, cPanel, Figma, VS Code, Responsive Systems
Operations:	Jira, Slack, Trello, Microsoft Teams, Agile Scrum
Core Strengths:	SEO Optimization, Web Accessibility (WCAG 2.1), Cross-Browser Compatibility, Reusable Component Lifecycles, Multilingual & RTL Layout Implementation

PROFESSIONAL EXPERIENCE

Frontend Developer & Team Lead — Eze Technologies

2024 – Present | Bahawalpur, Pakistan

- **Lead frontend engineering** for 8+ enterprise and client-facing platforms using React.js, Next.js, Tailwind CSS, and Bootstrap framework architectures.
- **Engineered a modular reusable component library** that unified design languages across separate apps and slashed feature development time by 30%.
- **Optimized application core performance by 40%**, consistently hitting 98% Google Lighthouse ratings and 100% scores for SEO and Accessibility compliance.
- **Integrated Laravel and PHP REST APIs** to systematically handle secure, high-throughput dynamic data updates across responsive viewports.
- **Collaborated closely** with product designers to translate pixel-perfect Figma layouts into highly maintainable, web-standard source repositories.

Frontend Developer (Team Lead) — EvonicSoft

2023 – 2024 | Lahore, Pakistan

- **Promoted to Team Lead** to supervise junior engineers, run structural code reviews, and guarantee clean production-grade code drops.
- **Successfully shipped 8+ ThemeForest-standard applications**, encompassing multi-tenant e-commerce systems and custom administrative portals.
- **Developed robust multilingual web platforms** featuring complete Right-to-Left (RTL) layout styling custom-tailored for regional Arabic localizations.
- **Enforced rigorous marketplace coding standards** across the development lifecycle, assuring highly testable and clean codebase architectures.

Frontend Developer — Devsyntrix Private LTD

2022 – 2023 | Lahore, Pakistan

- **Deployed 4+ scalable, mobile-first responsive web applications** targeting diverse cross-industry criteria using HTML5, CSS3, and Bootstrap 5.
- **Partnered with backend engineers** to optimize complex dynamic data pipelines and increase client-side script rendering speeds.
- **Refactored complex legacy frontends** into clean, modular structural layers, scaling down average deployment lifecycles by 25%.
